Page 98, after line 4, insert the following new section:

1 **SEC. 229. COLLABORATION IN PLANNING FOR STEWARD-**
2 **SHIP OF LARGE-SCALE FACILITIES.**

3 It is the sense of Congress that the Foundation
4 should, in its planning for construction and stewardship
5 of large facilities, coordinate and collaborate with other
6 Federal agencies, including the Department of Energy's
7 Office of Science, to ensure that joint investments may
8 be made when practicable. In particular, the Foundation
9 should ensure that it responds to recommendations by the
10 National Academy of Sciences and working groups con-
11 vened by the National Science and Technology Council re-
12 garding such facilities and opportunities for partnership
13 with other agencies in the design and construction of such
14 facilities. For facilities in which research in multiple dis-
15 ciplines will be possible, the Director should include mul-
16 tiple units within the Foundation during the planning
17 process.
