MR. WOODALL, from the Committee on Rules, submitted the following

## R E P O R T

[To accompany H. Res. ]

The Committee on Rules, having had under consideration House Resolution\_\_\_\_, by a nonrecord vote, report the same to the House with the recommendation that the resolution be adopted.

### SUMMARY OF PROVISIONS OF THE RESOLUTION

The resolution provides for consideration of H.R. 5303, the Water Resources Development Act of 2016, under a structured rule. The resolution provides one hour of general debate equally divided and controlled by the chair and ranking minority member of the Committee on Transportation and Infrastructure. The resolution waives all points of order against consideration of the bill. The resolution makes in order as original text for purpose of amendment an amendment in the nature of a substitute consisting of the text of Rules Committee Print 114-65 and provides that it shall be considered as read. The resolution waives all points of order against that amendment in the nature of a substitute. The resolution makes in order only those further amendments printed in this report. Each such amendment may be offered only in the order printed in this report, may be offered only by a Member designated in this report, shall be considered as

read, shall be debatable for the time specified in this report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. The resolution waives all points of order against the amendments printed in this report. The resolution provides that no further consideration of the bill shall be in order except pursuant to a subsequent order of the House.

Section 2 of the resolution provides that it shall be in order at any time on the legislative day of September 29, 2016, or September 30, 2016, for the Speaker to entertain motions that the House suspend the rules and that the Speaker or his designee shall consult with the Minority Leader or her designee on the designation of any matter for consideration pursuant to this section.

Section 3 of the resolution waives clause 6(a) of rule XIII (requiring a two-thirds vote to consider a rule on the same day it is reported from the Rules Committee) against any resolution reported through the legislative day of September 30, 2016, relating to a measure making or continuing appropriations for the fiscal year ending September 30, 2017.

#### EXPLANATION OF WAIVERS

The waiver of all points of order against consideration of the bill includes a waivers of the following:

- Section 3101 of S. Con. Res. 11 which prohibits consideration of legislation with a net effect of increasing direct spending by more than \$5 billion in any of the four consecutive ten-year periods beginning with the first fiscal year that is 10 years after the budget year provided for in the most recently adopted budget resolution. It should be noted that while the waiver is necessary, Rules Committee Print 114-65 would cure the violation; and

- Clause 3(e)(1) of rule XIII ("Ramseyer"), requiring a committee report accompanying a bill amending or repealing statutes to show, by typographical device, parts of statute affected. The waiver is provided because the submission provided by the Committee on Transportation and Infrastructure was insufficient to meet the standards established by the rule in its current form. The Committee on Rules continues to work with the House Office of Legislative Counsel and committees to determine the steps necessary to comply with the updated rule.

Although the resolution waives all points of order against the amendment in the nature of a substitute made in order as original text, the Committee is not aware of any points of order. The waiver is prophylactic in nature.

Although the resolution waives all points of order against the amendments printed in this report, the Committee is not aware of any points of order. The waiver is prophylactic in nature.
